

VINNY THE VIRUS

Indian  Creek
FOUNDATION

**Hi, my name is
Vinny!**

**I want to tell
you a little
about myself.**

I love to travel.

**The easiest way
for me to move
around is on
you!**

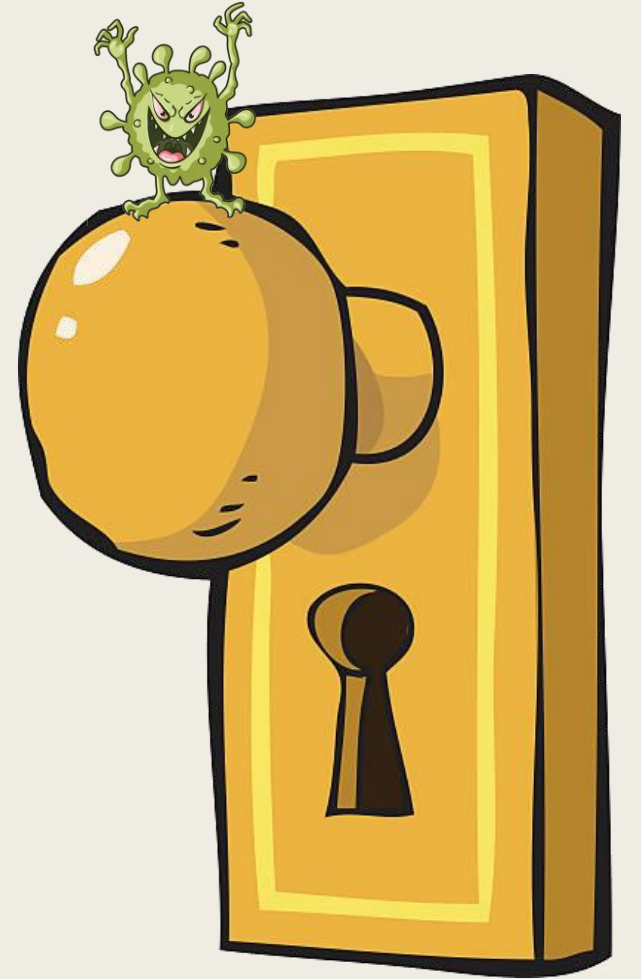

**You can't see me,
but I'm there.**

**I jump on your
hands when you
touch everyday
objects**

**I can live up to 3
days on things like:**

**door handles,
toilet handles,
phones, faucets, &
countertops/tables**

**I can make
you sick if you
touch your
face while I'm
on your hands.**

**Want me to go
away?**

**There are two
easy ways...**

**Clean commonly
touched surfaces
with disinfectants**

**and make sure
to...**

Wash your hands often!

- before you eat**
- after using the bathroom**
- when you touch something dirty**
- after sneezing and/or coughing**
- before and after you touch your face**

Wash your hands with soap and warm water for at least 20 seconds

(a) Wet hands under running water

(b) Apply soap and rub palms together to ensure complete coverage

(c) Spread the lather over the backs of the hands

(d) Make sure the soap gets in between the fingers

(e) Grip the fingers on each hand

(f) Pay particular attention to the thumbs

(g) Press fingertips into the palm of each hand

(h) Dry thoroughly with a clean towel

**Washing your
hands regularly
and cleaning
your home will
make me leave
you alone.**
